

Premium Full Managing

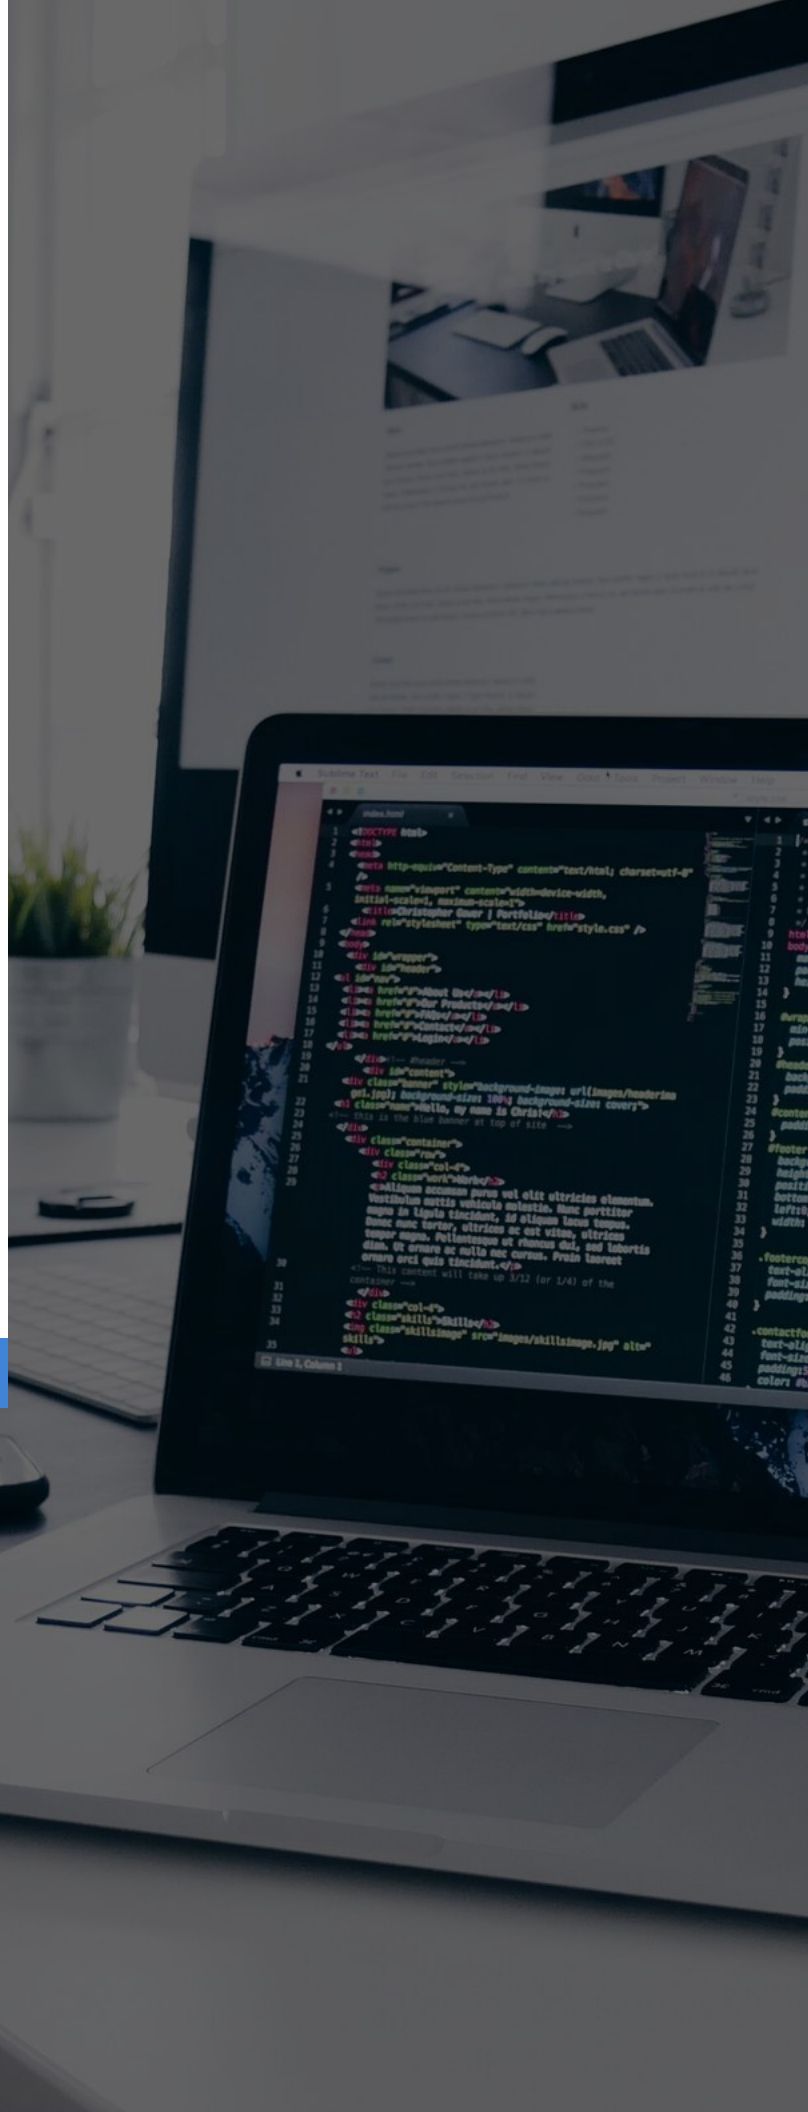

Backup, Monitoring & Patch Management - as a Service

All necessary standard tasks combined in one software. Use Premium Full Managing to take the first step towards "Managed Infrastructure" - with centron at your side.

Overview

Centron offers an all-inclusive service consisting of Backup-as-a-Service, Monitoring-as-a-Service and Patch Management-as-a-Service to help you achieve your cloud goals faster and more efficiently.

Premium full managing of your systems allows you to fully focus on your core business without having to deal with day-to-day IT tasks.

Build your VM with Premium Full Managing

Backup as a Service (BaaS)

- BaaS as part of centron's premium full management enables you to have a backup of your VM within seconds - without having to take care of it yourself.
- Optional geo-redundant backup and centron's backup system provide you with unseen efficiency and resilience of your systems.

Monitoring as a Service (MaaS)

- Monitoring as part of PFM leaves centron to take care of the health of your system. Through an all-encompassing check system your systems are monitored 24/7/365

Patch Management as a Service (PMaaS)

- PMaaS completes your VM with updates and security patches to ensure the highest levels of compliance and security

Managed Infrastructure - A prime example

The synergies between your individual products and services enable you to achieve the highest added value for your managed infrastructure.

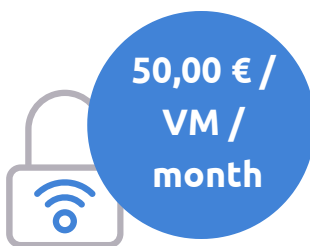

centron ccloud³

Agile and secure Infrastructure-as-a-Service solutions where you only pay for what you actually use.

Managed Firewall

A managed firewall from centron provides you with a maximum of individualized security - without any effort.

centron PFM

Premium Full Managing upgrades your ccloud³ infrastructure with backups, monitoring and patch management to help you save cash and be more agile.

centron PMS

With centron Premium Managed Services you outsource your entire IT. centron takes care of your entire infrastructure in a resource-based hourly quota.

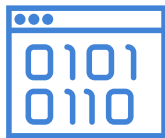

The centron advantage
